Director of Public Health and
Preventive Medicine.
Chennai – 6, Tamil Nadu.

PREFACE

The Directorate of Public Health and Preventive Medicine was formed during 1922 in Tamil Nadu with the objectives of provision of Maternal and Child Health care to the Rural and Urban people and for Prevention and Control of Communicable Diseases.

Tamil Nadu has emerged as a Model State in India in providing Health Care Services. It has already achieved the Health related Sustainable Development Goals (SDG) in Health Sector ahead of 2030. The State is also at the fore front in Prevention, Control and Treatment of Communicable and Non-Communicable Diseases.

A qualitative monitoring of various Vital Health Indicators and their improvements periodically is very essential in implementation of various Health Programs. The State Bureau of Health Intelligence has brought out the Health Dynamics which consists of Infrastructure & Human Resources of the Public Health Department of the State. Also, the Every Number Counts consists of Performance of various Programs implemented in the State during 2022-23 & 2023-24 which will enable the District/State level Programme Managers in planning various Health Interventions.

I hope this Book on Health Dynamics (Infrastructure & Human Resources) and Every number counts – Vol II will be more useful and beneficial to all Program Managers. Every Number Counts Book released during DPH ICON 2022 consists of five years Performance of various Programs implemented in the State during 2017-18 to 2021-22 was also uploaded in DPH website (<https://www.tndphpm.com>).

I record my appreciation of the efforts put in by the officials of SBHI involved in the preparation of this Booklet.

INTRODUCTION

DEPARTMENT OF PUBLIC HEALTH & PREVENTIVE MEDICINE

The Directorate of Public Health and Preventive Medicine was formed during 1923 in Tamil Nadu with the main objectives of provision of maternal and child health care to the Rural and Urban people and for prevention and control of communicable diseases. Lieut.Col.A.T.H. Russell was the First Director of Public Health and Preventive Medicine in the Pre-independent era.

Public Health Act.1939 is the legal instrument enacted before independence of the country which empowers the Health Officers to enforce Public Health Law to safeguard the Health of the people.

In 1966, the Department of Health Services and Family Planning was a unified integrated Department with Medical Services. Medical Education Directorate was formed after separating it from Department of Medical Services.

In 1976, the integrated Department was again divided into the Department of Public Health and Preventive Medicine (DPH&PM), Department of Medical services (DMS) and Department of Family Welfare (DFW).

The Drugs Control administration which continued under the Department of Public Health was separated in 1981 to form a separate Directorate.

In 1980, the Directorate of Primary Health Centres was formed exclusively for PHCs and in 1996 it was again brought under the control of Directorate of Public Health and Preventive Medicine.

The State Health Transport Department, which was with the Public Health Department, was separated from the Directorate of Public Health and Preventive Medicine on 15.07.1981

So there are continuous process of integration and separation in the department which had advantages and disadvantages in the department.

The Directorate of Public Health Training and Continuing Education was formed during 1988 by separating the Training component of Public and it was again merged during 1991.

As per the re-organization of the Department during 1980-81, there were seven regions, each region was administered by a Regional Assistant Director of Public Health and Preventive Medicine with jurisdiction over two to three Revenue Districts. There were 29 Health Unit Districts. Each Health Unit District was headed by a District Health Officer.

This system functioned well with decentralization of powers. Later, for financial austerity, these regional units have been closed and again the routine system of State and District Health Administration was formed during 1990.

Now, under the Directorate of Public Health and Preventive Medicine, 45 Health Unit Districts excluding Greater Chennai Corporation are functioning. Each Health Unit District is functioning under the technical and administrative control of one Deputy Director of Health Services. Each Health unit District comprises of 30-40 Primary Health Centres on an average. The PHCs have been established at the rate of one per 30,000 Rural Populations in plain areas and one per 20,000 Rural Populations in hilly areas. Each Primary Health Centre is functioning with minimum of two Medical Officers separated by a team of field health staff. Each Primary Health Centre comprises of 6 Health Sub-Centres on an average. These have been established at the rate of one per 5000 Rural Population in plain areas and one per 3000 Rural Population in hilly areas. All the National and State Health Programmes are being implemented successfully through these Primary Health Centres and Health Sub Centres.

பெண்களுக்கான குடும்பநல தற்காலிக கருத்தடை ஊசி (அந்தாரா)

FEMALE INJECTABLE CONTRACEPTIVES (ANTARA)

3 மாதங்களுக்கு ஒரு முறை மெட்ராக்சி புரோஜெஸ்டிரோன் அசிட்டு (MEDROXY PROGESTERONE ACETATE (MPA) ஊசி மூலம் செலுத்தப்படும் நவீன தற்காலிக கருத்தடை முறை.

முதல் ஊசி மாதவிடாய் தொடங்கிய 5வது நாள் போடப்படும்.

இரண்டாவது ஊசி 90 நாட்கள் கழித்து போடப்படும்.

இது ஒரு குழந்தைகளுக்கு இடையே போதும் இடைவெளி அளிக்கிறது.

இதன் மூலம் நவீன காலத்திற்கு குழந்தை பிறப்பை தடுக்கலாம்.
